

MCGANNON ENTERS PEN TO SERVE HIS TERM

(COLUMBUS, O., June 2.—(By the Associated Press).—William H. McGannon, former chief justice of the Cleveland municipal court, was a convict in the Ohio penitentiary today. He arrived last night and spent his first night behind the bars.

Today he will be photographed and measured, given a regulation prison suit of gray and a number. After today he will be known by number during his incarceration of from one to ten years for perjury. He was convicted of perjury in connection with his testimony at his trial for the alleged murder of Harold G. Koger in Cleveland two years ago. He was acquitted of the murder charge.

Warden Thomas said no preference would be shown McGannon and that he will be treated the same as all other inmates. There is no work to which he can be assigned just now, the warden said.

In company with his two brothers, Drs. J. A. and A. C. McGannon, and Deputy Sheriff Charles Wiedeman, the former judge, arrived here last evening shortly after seven o'clock. From the Union Station the quartet went to the downtown hotel, where they had dinner, proceeding immediately afterward to the penitentiary, arriving there shortly after 8 o'clock.

McGannon accepted his fate calmly. At times his eyes appeared somewhat glassy, but aside from that, he was apparently unaffected. A confidence man marked his trip from Cleveland to Columbus. Aboard the train were Judge Maurice Bernon, and Homer G. Powell, in whose courts McGannon had been on trial, and William H. Boyd, who was McGannon's counsel. They did not greet McGannon, even though they passed in the Union station and later at a hotel. Boyd was quoted as saying he was tempted to talk with him, but "didn't have the heart."

McGannon today was designated as convict "Number 60,064," and this morning was given the first of the four "degrees" new prisoners usually receive. The other "degrees" were to follow during the day.

The four degrees are:

1. Hair cut, shave, bath and prison clothes.
2. Photograph, measurements and finger prints.
3. Interview with officials to decide what prison work he is best fitted for.
4. Physical examination at prison hospital.

After that he will be assigned to work.

National Traffic Rules For Air Needed

WASHINGTON, June 2.—The commercial aviation which followed the dedication ceremonies Tuesday at Lincoln memorial has awakened a train of official reflection which may end in comprehensive national legislation for policing the air.

Judgment at the action of the Memorial day pilot who drowned out a large portion of President Harding's address by circling low about the memorial, Secretary Weeks, of the war department, has written the president suggesting that congress be asked to enact a code of "air rules of the road."

Army aviators long have been under orders to keep their planes away from crowds, both for the safety of those below and so that the roar of the motors may not interrupt public functions. Last fall the navy got similar instructions.

WHAT HAPPENED WHEN FLIERS COLLIDED ON SANTE FE

The above pictures show what happened on the Santa Fe railroad when "The Scout" (left) ran through a block signal at Ft. Madison, Ia., and crashed head-on into the "California Limited" (right). Only the two engines left the tracks. One fireman and one engineer lost their lives. The other two jumped to safety. "The Scout" ran through a block in November, 1920, at the same place and collided with a freight, resulting in the deaths of both fireman and engineer. The engine was put back into service only to be a "jinx" again.

Balloonists Throw Away Everything Even Cut Pieces Off Coats To Lighten Craft To Keep From Falling Into Lake

(CLEVELAND, June 2.—(By the Associated Press).—Lieutenant James T. Neely, pilot of army balloon No. 5 in the national race from Milwaukee, and his side, James B. Jordan, won a desperate fight for their lives when they landed at Dover Village, west of here, last night, after trying for 8 hours to make a landing.

A terrific wind blowing from the east over the Great Lakes region is held by these fliers responsible for forcing them.

Ralph H. Upton, of Detroit, and C. G. Andrews, of Washington, and at least four other balloons, all downed out of the race. Upton and Andrews landed at Concord, Ohio, five miles southeast of Painesville, according to advice received here. From there they walked to Chardon, where they spent the night.

To keep from dropping into Lake Erie, Lieutenant Neely said, he and his side, both of whom are stationed at Ross Field, California, threw out almost all of their food supply, cut loose all but two of the twenty-two sand bags and ballast they carried, threw overboard all of their instruments and even cut pieces from their coats and tossed them from the basket.

They first made several attempts to land at Ashabula. The wind caught them, Neely said, and to save themselves from the lake, they began throwing food and other articles overboard. When the wind died down a bit they tried to land again, but the

DUBLIN, June 2.—(By the Associated Press).—The Most Rev. John A. F. Gregg, Protestant archbishop of Dublin, started a diocesan meeting here today with the statement: "If we are not already engaged in civil war in Ireland, it may be upon us this week or next."

BELFAST, June 2.—(By the Associated Press).—After a 24 hours' orgy of shooting, incendiarism and looting, the city enjoyed a comparatively quiet night, although sniping continued in the Mill Field area and a woman was severely wounded.

Many Catholics are reported to have left Belfast, fearing for their lives.

The British destroyer Warwick, which searched the steamer, Crabbe, in Lough Foyle, off the northern Londonderry coast, halted two other vessels bound for Londonderry and warned them not to stop anywhere unless so ordered by warships. It is reported that the provisional government in Dublin is contesting Great Britain's right to search ships in these waters.

There is no confirmation from other sources of last night's Central News dispatch reporting fighting between Republican troops and special Ulster constables along a mile front on the Louth border. Seven lorry loads of British troops were said to have been rushed to the scene from Newry.

When a gang forced the door of a doctor's residence in the southside of the city, they were told by the servant, Susan McCormick, that he was not at home. Thereupon they poured a can of petrol over her and set her clothing afire.

She ran screaming into the street, where neighbors extinguished the flames, but not before she had been severely burned. She was taken to a

RACE TRACK FOLLOWER HELD IN WARD CASE

WHITE PLAINS, N. Y., June 2.—(By the Associated Press).—Examination of James F. Cunningham, a race track follower, arrested last night in connection with the killing of Clarence Peters, under mysterious circumstances that have involved Walter S. Ward, of New Rochelle, was planned today by District Attorney Weeks.

after a three hour conversation with the West Chester authorities in New York, he stated the man wounded by Ward in the battle following attempted blackmail had been taken to his mother's home and that the man told him about the blackmail plot to force money from Ward several days before it occurred.

Detectives are searching for the wounded man, whose name is still his probable hiding place, was revealed by Cunningham, according to the authorities.

The arrest of Cunningham revived stories of plunges made by Ward at various tracks and his acquaintance with many well known horsemen and gamblers. One story was that Ward disappeared some time ago and that detectives sent out to find the missing man discovered him at a race track near Baltimore.

Details of the information West Chester authorities were able to force from Cunningham have been withheld by Mr. Weeks and the sheriff.

District Attorney Weeks, who, now has three groups of investigators at work, expects the Cunningham arrest to bring a sudden break in the mystery surrounding the death of Peters.

Mr. Weeks stated that he would make no move until the clues obtained from Cunningham had been investigated. He admitted that evidence of a great blackmail ring had been put before him and that his men were putting every ounce of energy into tracing possible connections between Ward and the blackmailers.

Seek Agreement On Huge Debt Mexico Owes Bankers

NEW YORK, June 2.—(By the Associated Press).—Determined to reach an agreement if possible, but privately admitting that they were skeptical over the outcome, international bankers, headed by Thomas W. Lamont, of J. P. Morgan and Company, were called in conference today with Adolfo de la Huerta, Mexican secretary of the treasury, in an attempt to settle the long standing problem of the \$700,000,000 Mexican debt on which no interest has been paid since 1914.

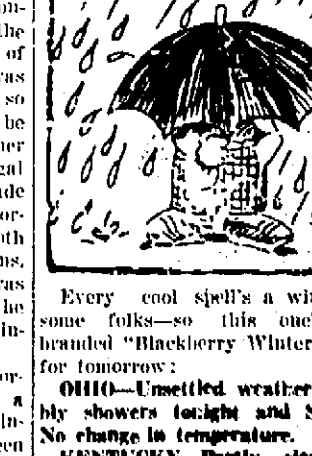

It is generally believed in the financial district that a satisfactory solution of the debt problem would pave the way for the recognition of Mexico by the United States government. Acknowledgment of its external debts and provisions for their payment always have been regarded by bankers as a necessary prelude to the resumption of diplomatic relations between the two countries.

Peace In China Seems Near

PEKING, June 2.—(By the Associated Press).—Restoration of peace in China, torn by civil conflicts for years, seems nearer than at any time since the Peking government first encountered armed opposition.

The whole matter as viewed in the light of recent developments revolves around Dr. Sun Yat Sen, president of the southern, or Canton, government, whose fight to wrest control from the Peking government has been based on the contention that Hsu Shih Chang's occupancy of the presidential chair was illegal and that he and his associates were unduly subject to Japanese influence.

Developments in the north tend to minimize the power of General Chang Tso-Lin, who recently let it be known he planned to establish an independent government in Manchuria, as a disturbing factor.

President Hsu Shih Chang will retire to Tientsin, leaving the presidential palace to his successor, who in all probability will be Li Yuan-Hung, former president.

Members of the old parliament, meeting at Tientsin, have requested Li Yuan-Hung to assume the presidency, from which he resigned in 1917 after the militarists obtained control. Li is expected to come to Peking immediately to take office until the full parliament holds a regular election.

President Hsu's resignation was announced in a mandate published today. The president's action followed a demand that he vacate, voiced by members of the Republican parliament, supported by the victorious General Wu Pei-Fu. The liberal press of China today acclaimed the retirement of Hsu Shih Chang as opening a new era in the country. It was pointed out that as long as he remained in office the north and south were antagonistic, but that since parliamentary government seemed restored, there was no longer reason for Sun Yat Sen to maintain a separate government at Canton.

Made Whiskey For Forty Years And Didn't Know He Broke Law

PETERSBURG, W. A native of the district proffered information to the troopers that "Old Man" Hours was running a still and had done so ever since he could remember.

Hoover Fixes Maximum Coal Price Of \$3.50 At The Mine

WASHINGTON, D. C., June 2.—(By the Associated Press).—With conferences looking to a price agreement for their district still to be held with the operators of producing fields in Pennsylvania, Secretary Hoover has secured the agreement of operators producing 80 per cent of the bituminous coal now being mined to a maximum price of \$3.50 a ton at the mine for the duration of the strike.

In making this announcement last night Secretary Hoover said he regretted that a small minority of the operators, representing western Kentucky, had refused to co-operate and were demanding \$4.25 a ton, a price which he said he did not feel justified in advising the public to accept, although production costs were higher there than in other fields.

SENATE AND HOUSE IN UPROAR DURING DEBATES; FIGHTS THREATENED

WASHINGTON, D. C., June 2.—(By the Associated Press).—The senate convened in an atmosphere of restored calm today to resume consideration of the tariff bill at the point where it terminated in somewhat of a hubbub last night as the climax of a session of heated debate on the dye schedule, reached in the third week of nerve-wearing night sessions.

Senator McChamber, Republican, of North Dakota, in charge of the tariff bill and Senator Pinchot, Democrat, of Arkansas, were the conspicuous figures in the climax of last night's session. Motion by the latter to adjourn when the senate had turned to the brick schedule after Senator McChamber had said he thought a vote could be obtained, led to an exchange that waxed in warmth as the two senators approached each other from opposite sides of the aisle.

Senator King, Democrat, Utah, sitting at the end of the aisle along which Senator McChamber was advancing as Mr. Robinson crossed over toward him, stepped between the two

Charges And Denials Of Fraud And Collusion In Granting Increased Salaries For Judges

COLUMBUS, O., June 2.—(By the Associated Press)—Charges and denials of fraud and collusion in the granting of increased salaries to Cuyahoga county common pleas judges during their terms of office were heard today before the supreme court.

The Allen county court of appeals in its opinion holding the judges were not entitled to increased pay for terms in progress at the time the act of the legislature granting increases became effective May, 1920, said there was evidence of fraud in connection with previous litigation in which the common pleas court had ruled in favor of the judges.

Attorneys W. H. Boyd and T. H. Hogsett, representing the judges, denied fraud. So did Assistant County Prosecutor James Cassidy, who said he approved the reversal by the Allen county court of appeals, but not with its reasons. George D. Hiles, Cleveland attorney, opposing the judges, declared there was evidence of collusion.

In June, 1920, a month after the law became effective, raising salaries of common pleas judges in Cuyahoga county from \$6,000 to \$8,000, Judge Lyman R. Critchfield, of Wayne county, granted a writ in mandamus ordering the auditor and treasurer of Cuyahoga county to pay the increased salary to the judges. He held that the constitutional provision against increases or decreases in salaries of common pleas judges during terms of office did not apply because the increase in point, namely \$2,000, was to be paid from the county instead of state treasury. The county prosecutor did not appeal the case and seven judges, H. G. Powell, A. J. Pearson, M. A. Foran, D. B.

Cull, G. T. Baer, F. C. Phillips and S. E. Kramer, drew the increase for a year.

Then Mr. Hiles, as a tax payer, requested the prosecutor to institute injunction proceedings to stop payments. The prosecutor's suit was dismissed by Judge J. W. Tarbell, of Brown county, on the ground that the question had been passed upon previously and no appeal taken. The court of appeals of Allen county reversed Judge Tarbell. The common pleas judges then appealed to the supreme court.

"If there is no collusion why did the prosecutor not appeal the case from Judge Critchfield's decision?" asked Hiles. "If the county auditor is custodian of the peoples' funds, why did he not insist on an appeal to have the question finally passed on?"

Counsel for the judges argued that the constitutional inhibition applies only to salaries obtained from the state, which were not increased by the law of 1920. This law affected judges in Cuyahoga, Lucas, Hamilton and Franklin counties, but only in Cuyahoga did the judges then in office seek to take advantage of it.

Roosevelt Presents Diplomas To Graduating Class Of The Naval Academy

ANNAPOLIS, MARYLAND, June 2.—(By the Associated Press)—Members of a naval academy graduating class again today were presented their diplomas by a Roosevelt.

Today it was Theodore Roosevelt, son of the late president, who as acting secretary of the navy, due to the absence of Secretary Denby, welcomed the more than four hundred midshipmen of the class of 1922 to places in the permanent naval establishment of the United States. In doing so, Mr. Roosevelt impressed upon the members of the class—probably the largest class to be commissioned for years to come—that they were starting on a life career.

"Your career is the sea," he told them, "but your career is not simply the sea, for your career is the sea and public service. We speak of the men of the navy as being in the service. These simple little words convey in themselves volumes. They constitute a tacit recognition of the fact that our navy men are public servants. In embracing the naval profession men dedicate themselves to a life not of gain, but of service. I know of no higher resolution than this."

Although Congress has shown indications of cutting down the size of the graduating classes at Annapolis, Secretary Roosevelt forewent no title when he would be abandoned. Military and naval forces, he declared, "are of great value to our country and to the world's civilization when they are devoted to the defense of our rights and to justice among the nations. Our country's status are clean and her ideals are high."

"Our giant strength, our arms and our armament have been used in the past and will be used in the future only for the defense of our rights and for the benefit of humanity. Navies and armies, particularly in our country, have been necessary instruments of progress. Navies and armies properly employed correspond among the nations to the law enforcement bodies within the various countries. As civilization is based upon law and law enforcement, so civilization is dependent upon the navies and the armies of the great high thinking countries. Should the great civilized countries abandon their navies disorders would spring up the world over as armed men from the dragon's teeth."

The graduates were told by the secretary that the qualities they must have for success are the great fundamentals—loyalty, courage, determination, but above all they must be leaders of men. "The qualities needed for the command of troops are the qualities you must possess to the highest degree," he asserted. "They are many and diverse, but perhaps of all these qualities there is none more important than absolute obedience by your rank, but unless you command loyal devotion by your character these under you will never serve as they would otherwise. You must pattern your lives so that your men will swear by you—not at you."

Another Sale Of "Home Baked Eats"

Did the people of Portsmouth appreciate the opportunity given last week to buy real "home made" good things to eat? No doubt about it. Virtually everything offered for sale by the women who conducted the sale at the Portsmouth Storage and Auction room, 541 Gallia, next to the Mary Leake, was snapped up by

eager buyers, and a handsome sum was realized toward meeting the expenses of the activities planned for the benefit of the young women of the community. The various articles offered for sale were baked by some of the best cooks in the city.

Another sale under similar conditions will be held Saturday aft-

ernoon when an endeavor will be made to have even a bigger variety of good things to eat than was offered last Saturday. If you want to be sure to get what you want come early.

The committee in charge consists of Mrs. C. M. Howland, Mrs. John A. Grimes, Mrs. J. N. Ellison and Miss Ruth Thompson.

The bodies of Arthur Sheridan, 14, and Harold L. Richard, 14, Chillum boys drowned Tuesday when they made an attempt to rescue Russell Evans, 15, when he slipped to a watery grave in Paint Creek, two miles south of Chillicothe Tuesday afternoon have been recovered. The body of the Sheridan boy was found Wednesday afternoon about 3:30 o'clock about a quarter of a mile below where he disappeared Tuesday afternoon. His body was brought to the surface by the use of grappling hooks. Thursday morning about eight o'clock the body of the Richard boy was found jammed against the wire fence stretched across the creek a mile below where the triple drowning occurred. The fence was built across the creek by the father of the Richard lad. The Evans boy was almost fully clothed when he went into the stream and it is thought that his body caught on a snag of some kind in the stream.

Miss Lindenmeyer In Post Graduation Recital

Miss Irma Lindenmeyer, daughter of Rev. and Mrs. S. Lindenmeyer of this city, gave her post-graduation recital Wednesday evening, May 31, in the Odeon at the College of Music of Cincinnati.

Miss Lindenmeyer presented a very pretentious and extremely beautiful program which she delivered with greatest success. The big hall was entirely filled, hearty and spontaneous applause greeted every number and numerous flowers were presented to the fine artist for her beautiful singing. Rev. and Mrs. Lindenmeyer who went to Cincinnati to take part of the daughter's gala event, are to be congratulated heartily on this unusual and seldom given degree of post-graduation.

Miss Lindenmeyer received her complete musical education at the College of Music, where she studied voice with such a famous authority and artist as Hans Schroeder, theory with L. V. Saar and piano with Treve Gardner. The beauty of her voice, her interesting and temperamental interpretations and her fine musicianship all helped to make this evening such a complete and never to be forgotten success.

Miss Lindenmeyer is crowning her work with a trip to Europe, where she will coach with the eminent and world known composer, Alexander von Felitz in Berlin, later going to Paris and London.

We wish Miss Lindenmeyer every possible success. She can feel assured that Portsmouth feels proud of her and will always take an active part in her welfare and in her further accomplishments.

We give herewith the program she delivered in English, French, Italian and German languages.

Which is Larger the Sun or a Cent?

"Why—the sun of course" you will say. But remember—you can hold the cent so close to your eye that you lose sight of the sun.

Some baking powders can be bought for a few pennies less than Calumet—but don't hold these cents too close to your eyes—you will not be able to see the quality—the purity—the dependability of

CALUMET
BAKING POWDER

In other words, don't be deceived by a few pennies—the cheapest baking powder in price is often the most expensive.

When you buy Calumet you know that it will produce pure, sweet, and wholesome bakings. You know that you use less because it contains more than the ordinary leavening strength.

Buy it—try it—be convinced.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

HOLY REDEEMER CLASS PLAY MAKES A BIG HIT

Real histrionic talent was revealed in profusion last night when the high school pupils of Holy Redeemer presented their class play, "Alabama," in the P. H. S. Auditorium.

Every seat in the big auditorium was filled when the curtains parted at 8:15 o'clock, and everyone was well pleased with the performance. Music for the evening was furnished by the Eastland Orchestra and it was most excellent. The music was one of the features that helped to make the entertainment the big success it proved.

Specialties were introduced during the first part of the evening. These included a "Pony Dance" by the little girls of the school. Little Albert and Robert Ward presented a clever little song and dance entitled "I Have a Parrot For You." These little folks are right at home on the stage, and their numbers are always well received. The next was a dance and drill by the little girls. "Action" was the title of a snappy song and dance presented by the smaller boys and girls. The Junior girls presented a beautiful Japanese drill.

No entertainment is complete without the Kicker Trio, and these

clever actors sang two of their peppy songs. They were heartily encored and would have been singing yet had they responded to the demands of the audience for "more songs."

Following the specialties, the high school pupils presented that beautiful Southern drama, "Alabama."

The stage settings for the play were exceptionally beautiful and realistic. They represented a rose garden on a Southern plantation, and the potted plants and blooming flowers were so attractively arranged that they represented a real outdoor garden. The play deals with the impending construction of a railroad through the plantation of Mrs. Page, a widow, with the residents opposing the laying of the tracks.

The whole cast showed wonderful acting talent, and the play proved to be one of the best ever given by the school. The Sisters who directed the play were commended by all who saw the rendition for it was one of the most successful ever staged by the Senior class of the school. The following are the cast of characters: Colonel Preston, an old planter—Barry McNamara.

Colonel Moberly, a relic of the Confederacy—Marion Schleinhage.

Squire Tucker, a Talmadge County Justice—George Dadoosky.
Captain Davenport, a "Northern Railroad man"—Charles Connors.
Mr. Armstrong, his agent—George Walters.
Lathrop Page, a "Southern boy"—John Frantz.
Raymond Page, a party of business—Joseph Gerkens.

Decatur, an ante-bellum servant—John Kellison.
Mrs. Page, a widow—Celia Dearford.
Mrs. Stockton, another widow—Evelyn Duschinski.
Carey Preston, an Alabama girl—Dorothy Lillick.
Atlanta Moberly, Colonel Moberly's daughter—Catherine Walters.

What you sit down?

"I'm sitting down," he replied, smiling. "No, thanks. I promised, so here I am."

"Well, I'm sitting down," he replied, smiling.

"He's got one chance in a thousand to pull through. Say what you like about that young woman—she can shoot."

Grim watchfulness was rewarded by her slight start.

"Nothing to say?" Bellamy demanded in pitiless humor.

"Thank you for letting me know."

"You didn't know Summerlad was here?"

"That question, I think even you would resent it."

"Perhaps." He delayed at the door.

"That girl . . . she got away. Not a trace."

"Are they—is anybody looking?"

"The police have got the job in hand. They didn't put my story at all at first. They didn't put it beyond me to shoot myself in the right arm to divert suspicion. Only one thing save me: Nelly's thoughtfully lost her handkerchief outside the window, with an extra clip of cartridges in it."

"She must have meant to make sure."

"Oh, she'd had it in mind for a long time. She let a hint fall the other night. Tonight one of the bellhops told me he'd seen her board a trolley for Beverly Hills."

"Well, I broke all records, getting out to Summerlad's."

"Lucky."

"Bell's words trailed off into a murmur."

"We're telegraphing Summerlad's people in Terre Haute. The family name is Slade. We thought he ought to have them with him."

"But Bell . . . Bellamy recoiled the door. "About that poor girl."

He looked startled. "That sounds like pity."

"What will happen to her?"

"Nothing—if I can find her before the police do."

Summer!

JUNE and its consequent warm days instill the longing for don't light weight summery things—Tub Frocks and chic, little Hats; a separate skirt and a trim wash blouse—a silken sweater or a light, sportive coat. Of course you will want to be utterly comfortable and it's delightful to know that you can also be entirely fashionable without spending a considerable sum to do it on! Here at Kline's exist abundant opportunities for you to realize your latest desires!

Charming TUB FROCKS

HERE is more than a harbinger of Summer; Here is Summer—expressed in every filmy fabric, gay coloring and bewitching style of these new Tub Frocks.

Just as significant a feature of this display of the clever styles and novel fabrics, is the very moderate price note. Every Frock represents a value of unusual attractiveness, far surpassing last Summer's opportunities.

ORGANDIE FROCKS, with their characteristic crispness in charmingly fluffy styles are still the dressiest of the Tub Frocks. There are Organdies ones too, fashioned of a new fabric, like organdie in texture, like voile in weave and patterns.

VOILE FROCKS are more the vogue than they have ever been and little wonder. In this heyday of draped Frocks nothing drapes with more becoming softness. New printed and embroidered patterns add further attractiveness.

DOTED SWISSES whose fashionable dark grounds make them so serviceable are here in a variety of quality bouffant styles. Of course you will choose a Swiss, maybe one made perky by a touch of organdie.

FROCKS OF RATINE are quite the thing for Sport and very good looking too. Many reveal a combination of white with red or serpentine or tangerine and the frock is often accompanied by a cape.

GINGHAMS in trig little styles to delight the housewife and also combined with organdie in Frocks for afternoon. Real tartan plaids and hair line stripes are most attractive in delicate and bold colors.

GARDEN FROCKS, uniquely patterned — well you simply must see them. They are in such picturesque styles that you will love to wear them to market, about home, mornings in the country.

IN A LOUISIANA HOME "TO STAY"

Thedford's Black-Draught Liver Medicine Praised by the Head of a Lake Charles Family

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the 'flu' by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine. We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unhealthy matter out of your system.

Thedford's Black-Draught is purely vegetable, and acts in a safe and wholesome manner as a result of the natural medicinal action of the roots and herbs of which it is composed.

Your druggist can supply you, too. —Advertisement

Plague Of Caterpillars Tying Up Railroad; Rails Are Rendered Slippery

GROVELAND, CALIF., June 2—A plague of caterpillars threatens to disrupt operations of the Hetch Hetchy Railroad. The caterpillars crawl along the rails, covering them sometimes for a distance of a mile making them so slippery that the engines cannot pull the trains up the grades. Many times the crews have had to cut the engine from the train and run over the caterpillars covered rails to coat them with sand before the train could be pulled through.

Auto Destroy Home; Extend Operations To Adjacent House

CLINTON, ILL., June 2—MRS. J. C. Sprague, who is rapidly completing the destruction of the home of U. T. Sprague, west of here, today had extended her operations to the house of C. F. Wild, across the road.

The Sprague family has been forced to vacate. All the hardwood flooring of the home has been hoisted and sills and weather boarding have been so thoroughly penetrated that pieces collapse when handled.

Steel Corporations Merge

NEW YORK, June 2—Thomas L. Chadbourne, attorney, today announced the plan of a new company to be formed by the merger of the Midvale, Steel and Ordnance Company, Republic Iron and Steel Company and Inland Steel Company.

The Republic Iron and Steel Company has blast furnaces at Birmingham, Ala., and Youngstown, Ohio, steel works, tube works, sheet and bar mills and a bolt and nut works at Monroe, Indiana, a special mill at Davenport, Iowa and a small plant at Chicago.

The company has coal mines in Alabama and Pennsylvania and iron ore deposits in Alabama and "the lake country," including Michigan, Wisconsin and Minnesota.

The Midvale locations are at Coatesville and Johnstown, Penna., with coal deposits in Pennsylvania and iron ore in the lake country.

The Inland plants are at Chicago, with coal in Pennsylvania and Southern Illinois and iron in the lake regions.

To Have Big Capacity

The combined annual ingot ton capacity of the three concerns is about 5,200,000. The entire total of the country is about 50,000,000, of which the United States Steel Corporation has about forty-five percent.

The Lockwood committee made an unsuccessful effort all day to learn something about the merger before it was announced, calling one steel magnate to the stand after another. Each gave the impression that there was nothing definite on paper as yet, and that the merger still was a long way off.

While Midvale, Republic and Inland were the parties, the steel men testified that the Brier Hill Steel Company of Ohio and the Steel and Tube Company of America in Chicago were "still in the picture."

Many Chillicothe Fans To Attend Boxing Show

JACK MITCHELL

There will be at least ten auto loads of boxing fans from Chillicothe in Portsmouth, Monday evening, to see Chillicothe's favorite boxer, Frankie Wells, in his ten-round match with Brockie Chapman of Columbus.

Wells has a record of 20 bouts without getting any worse than a draw, while in 11 bouts he has rung down the curtain on his opponents. It cannot be denied that Wells has a punch which he demonstrated here during his last encounter at the expense of Young Cooke.

In Brockie Chapman, however, Wells is meeting the highest class boy he has ever mixed with and the best 120 pound boy in Columbus. George Decault, Chapman's manager, says his boy will not only post a weight forfeit for Wells, but will give him a good lacing as well. This bout will make the Blair-Carter match hustle for first honors on the bill.

Nig Blair has been training with a pick and shovel gang for the past two weeks and says he is hard as nails. Starting today, Nig will start working out three times a day with Kayo Clarke of New Boston, who meets a dangerous boy in Jack Mitchell of Springfield, J. I. Marsh, who is handling Clarke, claims to have a real find in Clarke. This boy has been boxing for the past three years in the Navy and will provide the fans with action galore.

It's hardly necessary to say anything about Jack Major as he always

makes a hit, although in Young Snell of Springfield, Jack will meet the best boxer of his career.

Tickets are on sale at Cropper's

Smoke House, Play House and Marsh's Hotel. What's worrying the Commission most, is how can they handle the crowd?

Shoots Crows, Gun Explodes, Jackson County Boy Injured So Badly He Soon Passed Away

Special to The Times

JACKSON, O., June 2—A regrettable accident occurred on the farm of B. W. Burton, about four miles west of here on the Beaver Pike Thursday when Lawrence Burton, a son, was out shooting crows.

In some way the gun exploded and the lad was seriously injured. It was deemed best by the attending physicians to take him to a hospital in Columbus. He died at the Union Station and the body was taken to an undertaking establishment and sent back to Jackson, reaching here today at noon. Young Burton was about 13 years of age.

Workers Hold First Meeting

Last evening the first regular meeting of the organized workers of the Adult department of the First Christian Bible school met at the church from 7:30 to 8:30 and made plans for the regular conduct of the department.

Fred Hamilton, a member of the Efficiency Committee of the school, was selected as a delegate to the Sunday school convention to be held at Canton, June 21-23. It was also suggested that a number of automobile parties would likely be made up for the trip to the convention.

After the regular routine of business, C. M. Howland, general superintendent of the school, gave the representatives of the classes a number of things to think about in the way of doing some special class work, and also called attention to the fact that June 11 is Children's day, having been changed from the first to the second Sunday in the month by agreement of most of the schools of the city.

Two Castoffs Making Team, Mack Says

Two castoffs have rounded out Connie Mack's ball club. They are "Pep" Young of Detroit and "Doc" Johnston of Cleveland.

When Cleveland secured "Stuffy" McInnis from Boston to play first base there was no place for Johnston.

The Cleveland club asked waivers. All the major league clubs except the Philadelphia Athletics waived.

During the winter Connie Mack had purchased from the Milwaukee club Hubner, the star first sacker of the American Association. He was figured on as a certainty for first base.

Put In A Claim

Mack was unable to agree on salary with the recruit. In order to protect himself he put in a claim for Johnston.

The Cleveland castoff has gone so well up to date that Hubner, who has since agreed on terms, has no chance of breaking in as a regular at this time.

All last year "Pep" Young of Detroit had trouble with his throwing arm. The arm seemed strong enough but lacked accuracy. This spring the old fault was still with him. Manager Cobb of the Detroit club asked for waivers. Mack was the only manager to put in a claim for Young.

Change of Scene

Mack believed that Young's trouble was purely mental, and that a change of scenery also might work wonders for Johnston.

His opinion has been verified, for both have played great ball for him.

DREAMS HE IS IN WRECK; FALLS OUT OF BUNK

On Thursday the fracture was reduced and Sisler went to his home at Ironton with a hope of having no more violent dreams.

Home Robbed; Negro Held

A negro who is suspected of breaking into the home of John Adams, near Rader and stealing wearing apparel and other property valued at more than \$100 was apprehended at Clark, N. & W. terminals near Cincinnati, Thursday, where he is held for identification.

The house was ransacked Wednesday while a westbound N. & W. freight train, on which the invader was riding, stopped at the tank east of town to take water. When taken into custody the negro is said to have had some of the stolen property in his possession.

After this the parade was formed and marched to the Old South Cemetery where services were held over the grave of Sgt. L. J. Ellison. Hon. C. E. McCoy made a very fine address. Increases the action of the intestines

Hundreds of men and women have already found freedom from laxatives by eating Fleischmann's fresh yeast.

Doctors are now agreed that proper elimination of waste matter should be brought about by food. One doctor comes right out and states plainly that the indiscriminate use of cathartics is one of the causes of constipation.

Physicians all over the country are recommending Fleischmann's fresh yeast because it is a fresh food, rich in those elements which keep the intestines healthy. In one series of tested cases, normal functions were restored in from 3 days to 5 weeks.

Try it out for yourself. Begin today by adding 1 or 2 cakes of Fleischmann's Yeast to your everyday diet. Keep it up and see how normally and regularly your intestines act. Be sure it's Fleischmann's Yeast—the familiar tin-foil package with the yellow label. Place a standing order with your grocer.

Letters From Our Readers

Editor The Times: Sometime ago I read in your paper where the Safety Director had ordered garage owners not to repair cars in the street. It seems, however, no steps have been taken to enforce this ordinance, and having a measure of civic pride, I wish to register a complaint against such a nuisance.

On Lincoln street there is a small garage where cars are repaired daily in the street and across the sidewalk. Sometimes the sidewalk is blocked with a machine and at all times it is covered with black grease. This grease extends out into the street, and in fact, think I may be

safe in saying half a dozen cars are repaired at once, all in the street. It's a good thing short-skirts are in vogue, but it is rather hard on light shoes.

Can't something be done to prevent the streets being used for this purpose. It doesn't look fair to the garage man who pays high rent for a place to repair cars, when his competitor is permitted to use the streets free of charge for this purpose. Yet the man with the two-by-four building and use of the streets charges the same price for his work. Something wrong somewhere.

Sincerely yours,
READER WITH CIVIC PRIDE.

FEATURES OF YESTERDAY'S BATTLES

NEW YORK, June 2.—The Giants lost to Boston when Fillington, against whom they romped at the Polo Grounds a few days, was in form. The lowly Blues saved themselves from a cellar trip, 2 to 0.

Jack Fourchner of St. Louis helped himself to a homer which defeated Pittsburgh and instead of being tied for third place with the Dodgers today the Cardinals have the place all to themselves. Pittsburgh's hold on second place was weakened a trifle. The Reds battled Alexander hard in early innings and defeated the Cubs, 6-1. Luque, the Red moundman, hurled effectively.

George Sisler, ever a fruitful hitter, singled in the twelfth inning of a thrilling contest with the White Sox and drove Shorsten in with the winning Brown run.

Bath, connecting for a long triple, drove in the two runs that brought victory to the Yanks in a hard game with the Boston Red Sox. Joe Bush, by virtue of Tuth's triple, counted his sixth successive victory of the season. Rip Collins, a former Yankee, opposed Bush, a former Red Sox, on the mound.

Speaker's Indians, with good hurling by Uhle, bunched their hits off the Detroit pitchers and won 5 to 2.

RAIL UNIONS' CHIEFS' MEETING MAY BE TRANSFERRED TO CHICAGO

CHICAGO, June 2.—(By The Associated Press)—High chiefs of the railroad brotherhoods probably will hold their contemplated conference on wage reductions in Chicago instead of Cincinnati next Tuesday, it was said here today.

R. M. Jewell, president of the railroad employees' department of the American Federation of Labor, announced that the telegraphic vote by the brotherhoods' leaders on a meeting place was a tie between Chicago and Cincinnati and that the deciding vote probably would result in the selection of Chicago. Cincinnati was proposed because some leaders thought it would be convenient to assemble there in advance of the annual convention of the American Federation of Labor.

Union rail leaders expressed the belief that all railroad labor except train service employees would receive wage reductions in impending orders by the railroad labor board.

CINCINNATI, O., June 2.—(By The Associated Press)—Whether or not the four transportation brotherhoods would attend the conference and join the twelve other railroad organizations in action on wage reductions was the question uppermost in the minds of railroad men today, following announcement that such a conference would be held here next Tuesday to take up matters vital to

the welfare of all rail workers. The railroad labor board has announced that its series of wage decisions will be concluded before July 1, will not include the transportation brotherhoods, and it was pointed out that until they are given a decision they will not have ground for complaint.

E. H. Fitzgerald, grand president of the Brotherhood of Railway Clerks, denied last night that he had anything more to do with calling the conference than to consult his associates and agree to be present.

It was stated that the initiative had been taken by B. M. Jewell, president of the railroad department of the American Federation of Labor, who acted upon the assumption that the heads of all organizations affiliated with the federation would be in Cincinnati for the annual convention and it would be convenient for them to get together.

Although the meeting was called for railroad labor leaders only, Mr. Fitzgerald expressed the belief that before the conference comes to a close, all union heads throughout the nation may be sitting in its sessions.

Radford Denies Guilt

Attorney B. F. Kimble, who represents the accused told the court there were extenuating circumstances in connection with the case which he desires to investigate before the case was set for trial. Why the Whole Country is "STUMBLING"

New York's Latest Dance Craze

A New Yorker, while attempting to trip the "light fantastic" with a very charming partner, in one of the famous Dance Rendezvous of New York, accounted for his awkwardness by the very ingenious explanation that he was dancing the very latest dance, called "Stumbling."

The dance was not particularly graceful, but extremely novel. The other couples, entering into the spirit of the moment, joined in attempting the new dance.

Zoe Confrey, who wrote "Kitten On The Keys" heard about it, and wrote "Stumbling." Thus a new song and dance were born which have become the rage of the year, overnight.

It is a combination of the Blues and Jazz, plus something different from anything you have ever heard. To miss it, would be as bad as missing "Dardanella."

When you get this latest dance hit—a song published by Feist, played by Paul Whiteman's Orchestra, and issued by the Victor Talking Machine Company with the Kay-Griffin service as an extra "special release" you will have the biggest "bop" of the year.

STUMBLING

Also played by Paul Whiteman and his Orchestra. The popularity of "Georgia" needs no further introduction.

Amundsen's Ship Ready For Trip To North Pole

SEATTLE, WASH., June 2.—(By the Associated Press)—Captain Roald Amundsen's expedition ship Maud, crammed to the last inch with equipment and supplies, is ready to set sail tomorrow on the first lap of the long voyage, through the ice floes about the North Pole, Captain Amundsen said today.

Two airplanes to be used in meteorological and topographical investigations in the uncharted Polar basin, were loaded aboard the vessel, Captain Amundsen will not sail with the Maud, but will join his ship at

Nome, Alaska, leaving Seattle Sunday, on the steamer Victoria. "A deck load of lumber forms an important item in the Maud's cargo. The explorer explained that after the ship is frozen into the Arctic ice pack, with which he expects to drift past the North Pole, living quarters for the dogs of the expedition, and huts for scientific observations will be constructed on the ice. The ship, by means of lumber, will be converted into a "house," where for five or more years the vessel will drift and the crew will live.

As Captain Amundsen drifts slowly across the cheerless expanse of the Polar basin, from which no white man ever emerged, he will search the white waste about him for signs of the "Phantom Fleet"—the frozen company of lost ships that the Eskimos claim swings around the North Pole year in and year out, gripped in the luxuriant clutch of the great ice floes.

Vessels have disappeared strangely in the unexplored Polar basin since the beginning of Arctic navigation. In 1876, the ice carried off thirty whaling ships from the waters north of the American continent. Most of the men fled to the ice and escaped, but seventy refused to desert the ships.

Mark Crawford In Congressional Race

Following on the heels of the announcement made Thursday night by Attorney Mark Crawford of his intention to make the race for the Republican nomination for Congress from this, the Sixth district, came the filing of his declaration with

Clerk John F. Johnson of the Board of Election, shortly before three o'clock this afternoon.

The only other candidate for Congress so far announced is Charles C. Kearns, who is out for renomination for a fourth term. Mr. Crawford opposed Kearns for the nomination two years ago, but the Clermont county man outdistanced the local entry on that occasion.

State Declines

Land Bequest

COLUMBUS, O., June 2.—(By the Associated Press)—Governor Davis, in a letter to Director of Agriculture J. J. Taber, today turned down in behalf of the state the bequest of 500 acres near Yellow Springs, Greene county, for forestry and botanical purposes made by the will of the late John Bryan.

Mr. Bryan had bequeathed it to the state, on condition that no public religious worship should ever be permitted on the land. Governor Davis declared it was as bad to prohibit religious worship as it is to compel it, adding this "condition would be altogether too high a price to pay for this property."

Gary Testifies His Corporation Can Deliver Products \$3 A Ton Cheaper Than Independents

NEW YORK, June 2.—(By the Associated Press)—Albert H. Gary, chairman of the United States Steel Corporation, testified today before the Lockwood legislative committee investigating the building trust that his corporation was able to deliver its products at \$3 a ton less than its independent competitors.

He did not think the differential ever ran as high as \$5 a ton, as stated yesterday by John A. Topping, chairman of the Republican Iron and Steel Company. Mr. Gary conceded the difference in costs was largely accounted for by the fact that United States Steel owned more than 1,500 miles of railroad, connecting its plants with ore centers.

Insisting upon the corporation's justification in owning and operating its own lines, Mr. Gary was asked by Samuel Untermyer, counsel for the committee, how he reconciled such joint ownership with the court ruling in the Reading case, where it was held that joint ownership of railroads and coal mines was illegal.

"I am not very familiar with that case," he replied.

"Then you are not keeping pace with the law," Mr. Untermyer said, smiling.

Mr. Gary said United States Steel would object strongly to being divorced from its railroads, asserting that he did not believe ownership of the lines gave the corporation an unfair advantage over its competitors, such as was held to exist in the Reading case.

"In a concern doing such an immense business as the United States Steel Corporation," he declared, "it is necessary to own railroads. If we had to depend on the will and disposition of independent railroads whose service is devoted primarily to the interests of the general public, we could not be assured of good service."

Mr. Gary asserted the steel corporation's rail lines gave independent steel companies as good service as it got itself and declared he had never heard a complaint as to discrimination.

Mr. Gary thwarted efforts of Mr. Untermyer to draw from him admissions that J. P. Morgan dominated the corporation.

"Is it not a fact that J. P. Morgan names the directors?" Mr. Untermyer asked.

"Certainly not," retorted Mr. Gary.

"Who does name them?" "The stockholders," Mr. Untermyer smiled and Mr. Gary smiled back at him.

"Who really names them?" Mr. Untermyer persisted.

"I'll have to admit and claim," said Mr. Gary, "that I do more of that than any one else and always have."

Mr. Untermyer then tried to get Mr. Gary to admit that he and Mr. Morgan together controlled the corporation and that the other five members of the finance committee, which he had testified selected the directors, were mere "rubber stamps."

"That is not a fact," said Mr. Gary. "The other members aid in their selection."

He then recounted how, last year, he and President Farrell had selected three directors who were arrayed against Mr. Morgan's "judgment, but not against his wishes."

Call Conference In Overland Case

TOLEDO, O., June 2.—(By the Associated Press)—With a view to bringing about a settlement of claims of the Willys Corporation and the Willys-Overland Company, which have resulted in litigation in the federal courts, Federal Judge John M. Killits today called a conference of all interested parties for June 19.

The action followed the filing of an intervening petition yesterday by the receivers of the Willys corporation against the Willys-Overland Company involving more than \$5,000,000. This suit was an indirect result of the filing of a "proof of claims" by the Willys-Overland Company for \$5,107,766.96, it is said.

The petitioners are asking for a judgment of \$136,647.71 and the return of the money which the Willys corporation invested in the stock of the Willys-Overland Company, of which it is the largest single stockholder. The court is also asked to have an accounting ordered so that damages which the Willys corporation alleges to have suffered may be definitely determined.

The further rise was again attributed to the German moratorium, which is regarded here as the prelude to an international loan to the German Republic, largely under British auspices.

 Iron Men
 Spring Street

The leaders cracked badly last night and as a result, the race is considerably tightened up. The Trinity Firsts lost five games in the Excelsiors which is more than they have lost to all the other teams they have played so far, put together, and the Campbell Ave. instead of making a clean sweep from the Spring Street, dropped four of their games to them, with the result that the three teams tied for third place, are only five games behind them.

It was certainly Craig's night, he being high man both in points and ringer throwing, and breaking the previous record of 80, hanging up a new one of 92. Norman Kitchen was second with 79 points and Dempsey third with 72. Craig also led in ringer throwing, ringing 31, Hughes and Dodge being second with 20 apiece, and N. Kitchen fourth with 22.

The Campbell Ave. were first to finish their games, reporting eight won and four lost, to the Spring Street team. Sparks and Dopps won five of theirs, taking three straight from Newman and Ogden, 21-5, 21-14 and 21-10, but losing to W. Mitchell and Davis, 14-21, 21-12, 21-10.

Rhbe and S. Ashford broke even, winning two from Mitchell and Davis, 5-21, 21-20, 21-18, and losing two to Spring Streeters Newman and Ogden, 17-21, 6-21, 21-16.

High men, Dopps 62 points and 21 ringers. Sparks 55 points and 25 ringers and W. Mitchell 45 points and 23 ringers.

The Hilltop A. O. were in good form and fattened their average at the expense of the Trinity Second, winning 11 of the 12 games. Brady and Hughes made a clean sweep, winning from D. Ashworth and D. Massie, 21-15, 21-12 and 21-5, and from Chick and Lucas 21-12, 21-5 and 21-12. L. Rheinhardt and Dempsey dropped one to D. Ashworth and D. Massie, 21-6, 10-21 and 21-19, 21-7 and 21-8. High men, Dempsey 72 points and 30 ringers and L. Rheinhardt 47 points and 24 ringers.

The Iron Men matched against the Lincoln Fire Eng. Co. pitched each other, Cook and Dodge being in rare form, Cook making 65 points and 21 ringers and Dodge 61 points and 20 ringers.

But the surprise of the evening was the Trinity First—Excelsior games. Crawford never appreciated how valuable he was before. Byron Prediger took his place and did very well, making 40 points and 13 ringers, but with Richard Prediger as a partner, he only broke even, winning 20 from Riggs and Booker, 21-17, 21-17 and 21-10, but losing two to Rheinhardt and Wes Crabtree, 15-21, 9-21 and 21-18. Trinity's J. Massie and J. Ashworth won both their matches, defeating Rheinhardt and Crabtree 21-14, 21-18, 10-21, and Riggs and Booker, 21-11, 21-15 and 18-21. Highmen, J. Massie 66 points and 20 ringers and K. Prediger 62 points and 27 ringers.

The eagles fattened off the York Parkers, winning ten games. Gerald and K. Kitchen made a clean sweep of the evening, winning from W. Bierley and Strader, 21-2, 21-7 and 21-5, and from H. Bierley and F. Kitchen, 21-20, 21-2 and 21-12. In spite of the fact that Craig was in such fine shape, he and Millson dropped two of their games, losing one to W. Bierley and Strader, 21-11, 11-21 and 21-11.

A Real Match

PHILADELPHIA, June 2—Lew Tindler, Philadelphia lightweight, who has been matched to meet Bobby Leonard, the world's champion, in a 12-round bout at Jersey City, and Bobby Barrett, the hard-hitting Clifton Heights, Pa. boxer, will meet at the National League park tonight in an 8-round bout.

Tindler, who has defeated many of the country's leading light-weights, is the favorite in the betting. Barrett has been boxing only about two years, but has developed terrific punching power. He knocked out Hyman Gold, of California, in three rounds, a feat which took Tindler seven rounds to accomplish.

Wells New Manager Of N. & W. Team

At a meeting of the N. & W. Industrial League ball team Thursday night Wilbur Wells resigned as manager and the players by a unanimous vote selected Landon Wells as their new pilot. The new leader immediately took charge of the team and he will direct its play during the remainder of the season. Wells is immensely popular with the members of the team and the athletes assured their new boss that they will aid him in every way possible.

The retiring manager by surrendering the leadership will not leave the team, but following his own wishes will retire to the ranks and will continue to perform behind the bat and lend all assistance he can to the success of the club and the new manager.

Champ Cooper, the crack second baseman of the former champion Solvays, has been signed by the railroaders and he was chosen as field captain. He will not be able to get in the game for a couple of weeks owing to a broken finger he sustained in a recent game.

View Site For New Hospital

CHILLICOTHE, O., June 2—Col. O. R. Forbes' committee of statistical experts viewed the proposed Camp Sherman hospital site yesterday afternoon and from all reports was satisfied.

The committee brought here from Washington to consider the reservation's possibilities for an expansion program, of which a 500-bed hospital at disabled service men is a part, went over the hill north of the base hospital and is reported to have pronounced it suited for the institution in many ways.

Remember only 30 more days to pay your June taxes.

PRIVATE LIFE A CONSIDERATION

WILL H. HAYS is credited with telling the moving picture producers that the annoyances of censorship might be avoided by making censorship unnecessary. There are indications that the principle is being acted upon.

If there are no improper films and no notorious persons are exposed in the movies the censors will be out of jobs, for there will be no work for them to do. The men who make the films will have usurped the function of the censors. There have been at least two instances in which the ambitions of widely, but not favorably, known personages have met with disappointments. These instances give warning that those who offend the conventions cannot hope to be stars in the movie firmament.

There is a forcible reason why those whose reputations have been besmirched should be excluded from the movies more completely than from the speaking stage. Children attend the movies and growing boys and girls usually know more than their parents are aware. If they see portrayed on the screen a personage whose private life is notoriously outside conventions and no objection is raised, the thought is likely to find lodgment in the youthful mind that such things are not amiss, if one can get away with it. Too great care cannot be taken to prevent immature minds setting up false standards. That there have been instances wherein there is warning that there are manners of life which will bar from the movies will not be lost in its effect on others.

It will not be insisted that a Puritan atmosphere surround the movies, but that personal habits be of a kind not to offend is demanded.

WORKING OF CONSCIENCE

A conscience which will not permit a man to eat or sleep until he has confessed perpetration of a crime for which the penalty is imprisonment in the penitentiary certainly operates with great power. Instances of attempts at restitution of something wrongfully had are not rare. The government has a "conscience fund" to which are credited remittances from those who in some way have defrauded it and are driven to a desire to make payment. However, these payments, without exception, perhaps, are made anonymously. The conscience-stricken keep to themselves their identity. Presumably it satisfies conscience to have restored the amount secured by illegal means.

The case of an Ohio man who confessed to the police that he set fire to his bakery several years ago in order to secure the insurance goes much further in satisfaction of the prods of conscience than is usually the case where conscience acts at all. It seems that he was not even suspected and he secured the money which enabled him to discharge some debts and also to start in business again. Then for a number of years, conscience didn't interfere with his pleasure. He had the money and nobody knew of his crime. "It was last Easter," he says, "that the awfulness of the thing possessed me." Since then he had not been able to eat or sleep and to get rid of the load he confesses and submits himself to a charge of arson.

There may be disagreement as to that of which conscience consists. It is certain that as far as external evidence goes some people are not troubled by it. The Ohio man might have tried in some secret way to make restitution. Whether he thought of that is not stated. That he was driven to reveal voluntarily that which may cause him to serve a term in the penitentiary is proof of the force exerted. "Conscience does make cowards of us all" was the lament of Hamlet, but it didn't make a coward of the person in question. It made him brave. It gave him courage, for it took courage to make a confession which involved such unpleasant possibilities. We suspect that a good many of us would prefer not to have such an efficiently working conscience.

Sherman may never have said it, but the fact remains.

With the reception of the German ambassador the war is over except paying for it.

Conan Doyle says there are no movies in spirit land, so it has one thing in its favor.

Rumors of drops in the cost of living persist but they are pretty generally discredited.

A snake bite serum is to be supplied New York campers. Enforcement agents should look into this.

Those round-the-world flyers will have to step on the gas if they expect to stick on the front page very long.

Russian bolsheviks are convinced that this country is their enemy because it has been suggested that they go to work.

A pharmacist says the "up-to-date" man uses cosmetics just like a woman. He wants to be pretty too, the dear old thing.

Voliva has denounced Conan Doyle, a proceeding that comes near being a testimonial for Doyle than anything else that has happened.

Chicago expects to surpass Paris in population in 1924, but judging from the news that comes out of Chicago the more population it has the worse off it is.

Nicaragua should understand by this time that revolutions are "verboten" by Yankee marines.

Europe will affect surprise, perhaps, as Uncle Sam moseys out to make a touch to pay some of his pressing bills.

Now watch how quickly the world's bankers clear up the reparations mess. It's a business rather than political problem.

THE BIBLE IN PICTURES AND TEXT

By HELEN E. OBERNSCHALL

THE PEOPLE ARE NUMBERED

IT WAS time for the children of Israel to journey towards the land of Canaan. God commanded Moses and Aaron to divide the people into thirteen tribes and number the men who were able to go out to war. There were the tribes of Ruben, Simeon, Levi, Judah, Zebulun, Issachar, Dan, Gad, Asher, Naphtali, Ephraim, Manasseh and Benjamin. The men of the tribe of Levi were not to be numbered, for they were chosen to take care of the tabernacle, taking it down and setting it up where ever the people camped on their journey.

New York-Day-By-Day

BY O. O. MCINTYRE

NEW YORK, June 2—Thoughts while strolling around New York: The park lakes shimmering with morning. The iron deer belt. Red-dressed brick homes. With croquet grounds. Acres of autos. Swift and soundless. Apple-like boys in poudr-drawn dog-carts. A forbidding mansion. Ever mysterious. A million lives there. With a Manchu wife.

Upper Fifth Avenue's smart shopping district. The docking space for European fashions. The perfume of French decadents. Imperial silks and clattering hansom. Well-washed bloods in tennis flannels. All steamed up. The society C. D. Gibson produces in ink. Discolored by delusions of grandeur.

There goes Ochs, the proprietor of the Times. Windows of Serres china and lapis lazuli. Luncheon. Fittings. Teas. Bridge. A tangled cosmos. Wonder if Ring Lardner is wearing last summer's straw hat. The new shade is a dark tan. "Music With Your Shine" reads a sign.

What has become of the New England boiled dinner? The noon-day Broadway crowds. Soft-shoe dancers. Carbone cadgers. News flippers. Lush-stone evangelists. And hard-boiled eggs. Shanley's cafe has been done over. Something spic—I don't know what—about steaming coffee urns.

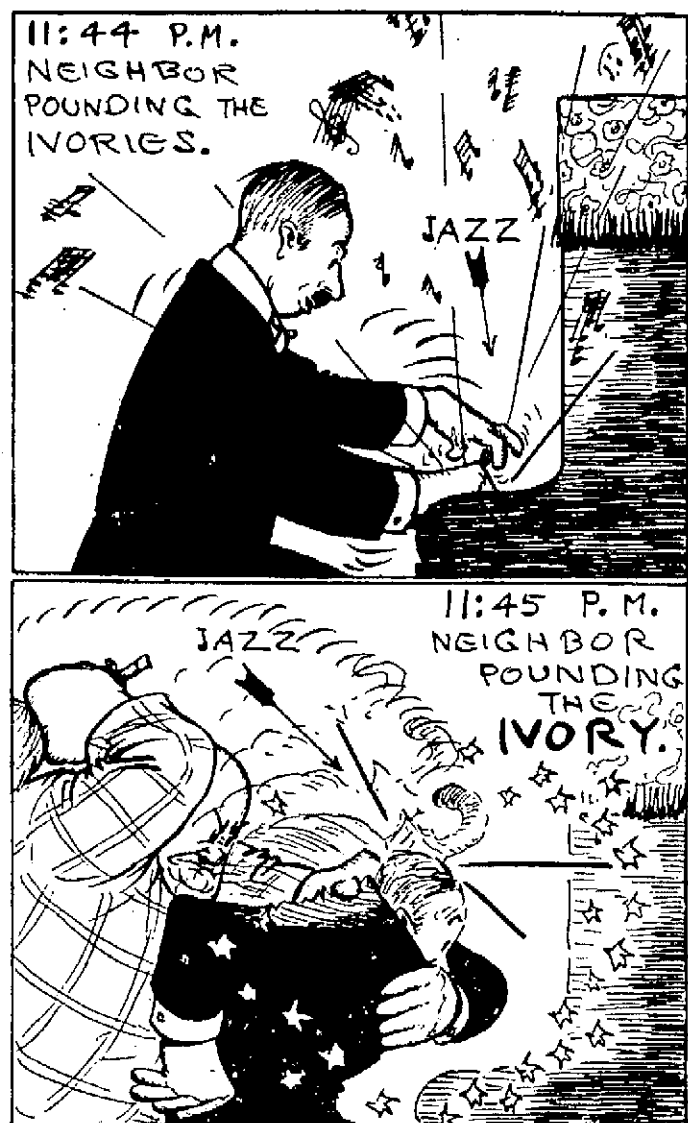

Intellectuals going to the Coffee Club. Everything Russian—even Russian grand opera. With a bearded tenor. Frank L. Packard, the novelist, going to a pious mid-day retreat. They used to serve gorgeous mint-juleps there. Made of Bourbon. Now they serve synthetic gin cocktails. Tasting like dog soap. Leblang's theatrical cut-rate ticket shop. Bought a big drug store to give him a Broadway entrance. There's a merry hurrah. A fellow with a purple derby and a yellow tie. Try to picture that—while I devour a few hot sausages.

Radio has broad-casted a lot of men into good jobs along Park Row. Among the highest salaried men on newspapers these days are the radio experts. One electrical expert on an evening journal is receiving \$22,000 a year, and the radio reporters—leg men—are getting from \$100 to \$125 a week.

Now that the supper clubs cannot permit dancing after 2 o'clock they are offering special vaudeville acts to hold the crowds. The manager announces the last dance and tells with quivering voice of the municipal edict that is spoiling New York's night life. where the police regulations are not so strict.

Down near sun-drenched, swarming, grass forsaken Tompkins square on the East Side is an intellectual club founded by Russian workers—not the refugees or violent theorists—but earnest, newly-made citizens who wish to preserve something of a cherished heritage, the love of native books, music, folk stories and dancing. In the basement of the club is a Moscow restaurant, where they sit at tables sipping creaming mugs of brown kvass—a sort of exotic cider. Every evening one may hear the balalaika playing Moussorgsky and Rimsky-Korsakov. There is a free library filled with books of Tolstoy, Pushkin, Turgenev, Dostoevsky, Sorokin, Chekhov, Kropotkin, Gogol and Andreiev. The building which houses the club is decorated with bright allegories of life. In the hallways are statues of Chaliapin, Lincoln, Andreiev and Washington. It is a colorful place—as colorful, indeed as Tompkins Square which is filled with a population from almost every foreign land.
